Guarantee		Lean theorem(s)	Axiom audit	Tests and evaluation	Forensics
1	ACCEPT => every applicable mandatory requirement passes	*covered* `verdict_accept_sound, verdict_accept_iff`	*covered* 2/2 standard only: propext, Quot.sound	*covered* 4/4 mapped tests pass (4 cases)	*covered* 2/2 clean
2	Missing mandatory information cannot give ACCEPT	*covered* `accept_no_unknown, missing_capability_unknown, unknown_value_never_passes, cap_not_usable_missing`	*covered* 4/4 standard only: propext	*covered* 4/4 mapped tests pass (7 cases) E4: 0 of 2,700 faulty configurations accepted (+50 controls)	*covered* 4/4 clean
3	Unsupported requirements (dimension/shape/model) cannot give ACCEPT	*covered* `accept_no_unknown, pass_dims_all_match, coupled_pass_dims_match`	*covered* 3/3 standard only: propext, Quot.sound	*covered* 4/4 mapped tests pass (7 cases)	*covered* 3/3 clean (statement generalised)
4	A confirmed mandatory failure prevents ACCEPT; REJECT rests on trusted evidence	*covered* `fail_implies_reject, violation_prevents_accept, verdict_reject_complete, verdict_reject_sound, fail_needs_trusted`	*covered* 5/5 standard only: propext, Quot.sound, Classical.choice	*covered* 4/4 mapped tests pass (6 cases) E4: 0 of 2,700 faulty configurations accepted (+50 controls)	*covered* 5/5 clean (gap found and fixed)
5	Every applicable mandatory coupled constraint passes before ACCEPT	*covered* `accept_all_coupled, verdict_accept_sound`	*covered* 2/2 standard only: propext, Quot.sound	*covered* 4/4 mapped tests pass (4 cases)	*covered* 2/2 clean
6	Optional requirements do not block acceptance	*covered* `verdict_ignores_optional`	*covered* 1/1 standard only: propext, Quot.sound	*covered* 2/2 mapped tests pass (2 cases)	*covered* 1/1 clean
7	Non-applicable requirements cause no false failures	*covered* `verdict_ignores_nonapplicable, condition_false_not_applicable`	*covered* 2/2 standard only: propext, Quot.sound	*covered* 1/1 mapped tests pass (1 case)	*covered* 2/2 clean
8	Installed accessories are distinguished from optional ones	*covered* `not_installed_never_passes, unknown_install_never_passes, cap_not_usable_missing`	*covered* 3/3 standard only: propext	*covered* 4/4 mapped tests pass (4 cases) E4: 0 of 2,700 faulty configurations accepted (+50 controls)	*covered* 3/3 clean

9	A verdict applies only to the exact configuration and experiment	*partial*
		`run_binds_inputs, run_reports_everything, verdict_deterministic`
		`(verdict_deterministic: congruence only)`
			covered
			3/3 standard only: propext, Quot.sound
				covered
				3/3 mapped tests pass (3 cases)
					partial
					3/3 clean;
					1 is congruence

10	AI cannot bypass the gate	*none*
		`no theorem: holds by construction`
		`(the Lean input type has no AI field)`
			none
			n/a
				covered
				3/3 mapped tests pass (3 cases)
					none
					n/a

11	Z3 cannot override a Lean rejection	*covered* `candidates_verdicts_are_lean, candidates_accept_sound`	*covered* 2/2 standard only: propext, Quot.sound	*covered* 2/2 mapped tests pass (2 cases) E3: 86 Z3 candidates, each verdict from Lean (26 met)	*covered* 2/2 clean
12	New industries cannot bypass mandatory checking	*covered* `verdict_industry_irrelevant, verdict_name_irrelevant`	*covered* 2/2 standard only: propext, Quot.sound	*covered* 3/3 mapped tests pass (3 cases)	*covered* 2/2 clean
13	A campaign schedule is accepted only if bounds, disjointness and acceptance hold	*covered* `validSchedule_{sound, complete, bounds, disjoint, only_accepted, rejects_unaccepted}`	*covered* 6/6 standard only: propext, Quot.sound	*covered* 4/4 mapped tests pass (7 cases) E6: Lean matches an independent re-check on 400/400 tampered schedules	*covered* 6/6 clean
aux A	ACCEPT/REJECT specs exclusive; coupled-expression evaluation sound and complete	*covered* `satisfies_spec_exclusive, evalExpr_sound, evalExpr_complete`	*covered* 3/3 standard only: propext, Quot.sound, Classical.choice	*covered* 1/1 mapped tests pass (1 case)	*covered* 3/3 clean
aux B	The rational order is independent of representation	*covered* `Q.le_scale_left, Q.le_scale_right`	*covered* 2/2 standard only: propext, Quot.sound, Classical.choice	*covered* 1/1 mapped tests pass (1 case)	*covered* 2/2 clean

covered partial none

tests: 91 fast tests run here, all pass | forensics: 839 declarations, 0 non-standard axioms, 0 smells, 0 unsafe flags
